

# HTML/CSS LABS

Over the course of the next two labs, you will be creating a website for a company. The company requires you to develop the site based on the specifications of a designer. You will be given assets to aid you in developing this website.

The website will be built in 2 stages:

1. The first step is creating the basic layout
2. The second step is modifying the website to make it easily accessible on all devices

# HTML/CSS LAB PART 1

**Task:** Create a website for the company that will look identical to their design specifications.

## What does the application do?

1. Displays information about the company.

## Build Specifications:

1. Must be built using the images, colors, fonts, and wireframes given to you by the designer.

## Wireframe Preview:
